Safety is an important topic for all children to learn about, and it is especially important for bilingual students to be able to understand safety instructions in both English and Spanish. This article provides 10 safety assignments that can be used to teach bilingual students about safety in both languages.

## 1. Fire Safety

This assignment can be used to teach students about the basics of fire safety. Students will learn about the different types of fire extinguishers, how to use them, and how to escape from a burning building. The assignment can be completed in English or Spanish.

## 2. Water Safety

This assignment can be used to teach students about the basics of water safety. Students will learn about the different types of water hazards, how to stay safe in the water, and what to do if someone falls into the water. The assignment can be completed in English or Spanish.

# Water Safety TIPS

**Throw Don't Go!**  
If you see someone who needs help, never jump in after them. Find something that FLOATS to THROW to them.

**Life Jackets!**  
If you are ever at a waterpark, on a boat, or in a crowd near water, wear a LIFE JACKET.

**'Da Buddy System!**  
It is important to never, EVER swim alone.

**Call for Help!**  
Know where the lifeguards are and know when to call 911.

**Pool Rules Rule!**  
Learn the POOL SAFETY RULES and follow them.

### 3. Pedestrian Safety

This assignment can be used to teach students about the basics of pedestrian safety. Students will learn about the different types of pedestrian hazards, how to stay safe when walking, and what to do if they are involved in a pedestrian accident. The assignment can be completed in English or Spanish.

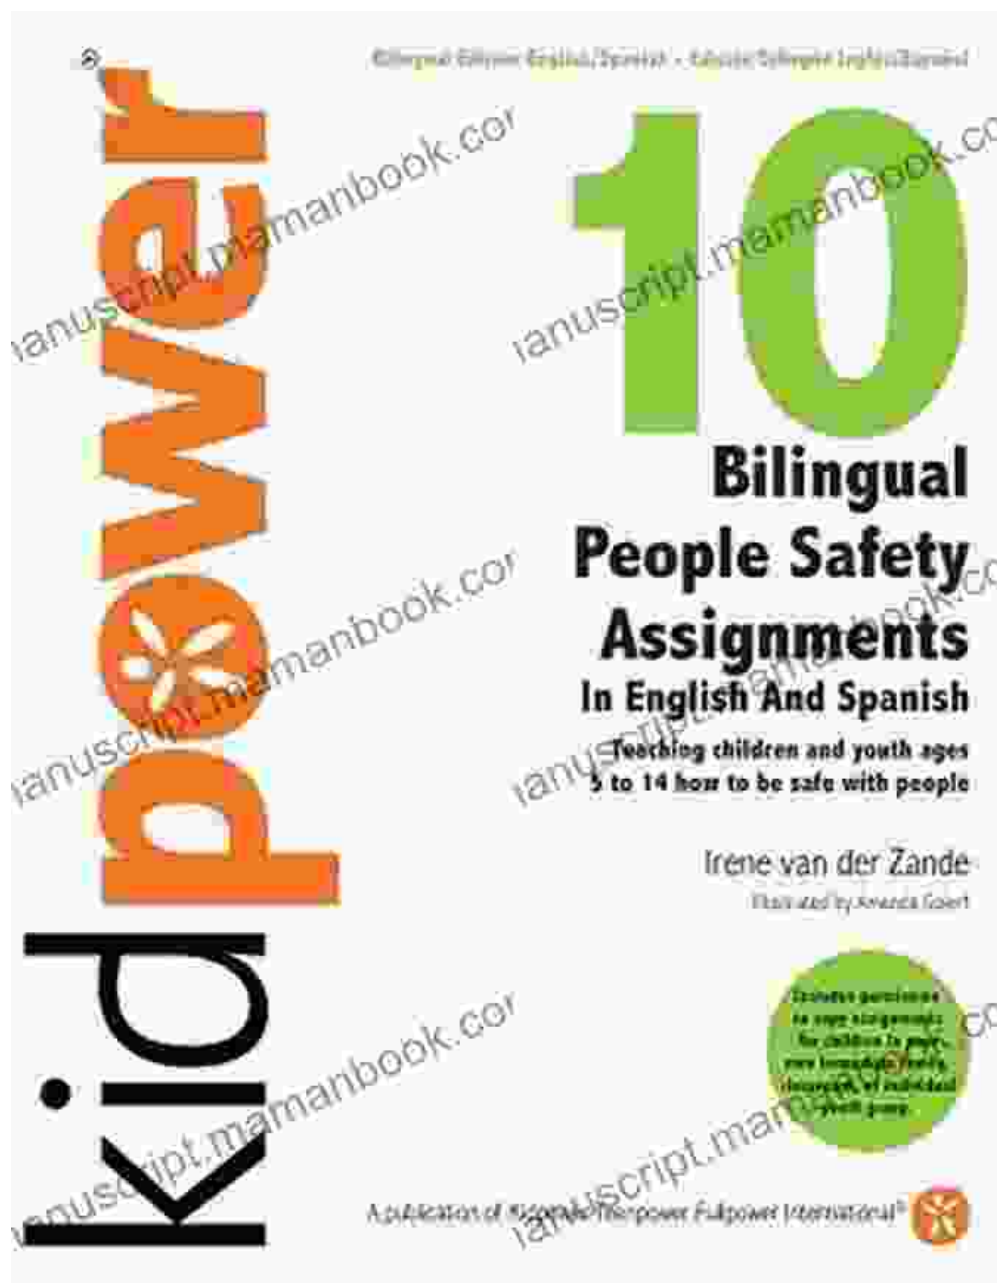

#### 4. Stranger Danger

This assignment can be used to teach students about the basics of stranger danger. Students will learn about the different types of strangers, how to stay safe when interacting with strangers, and what to do if they are approached by a stranger. The assignment can be completed in English or Spanish.

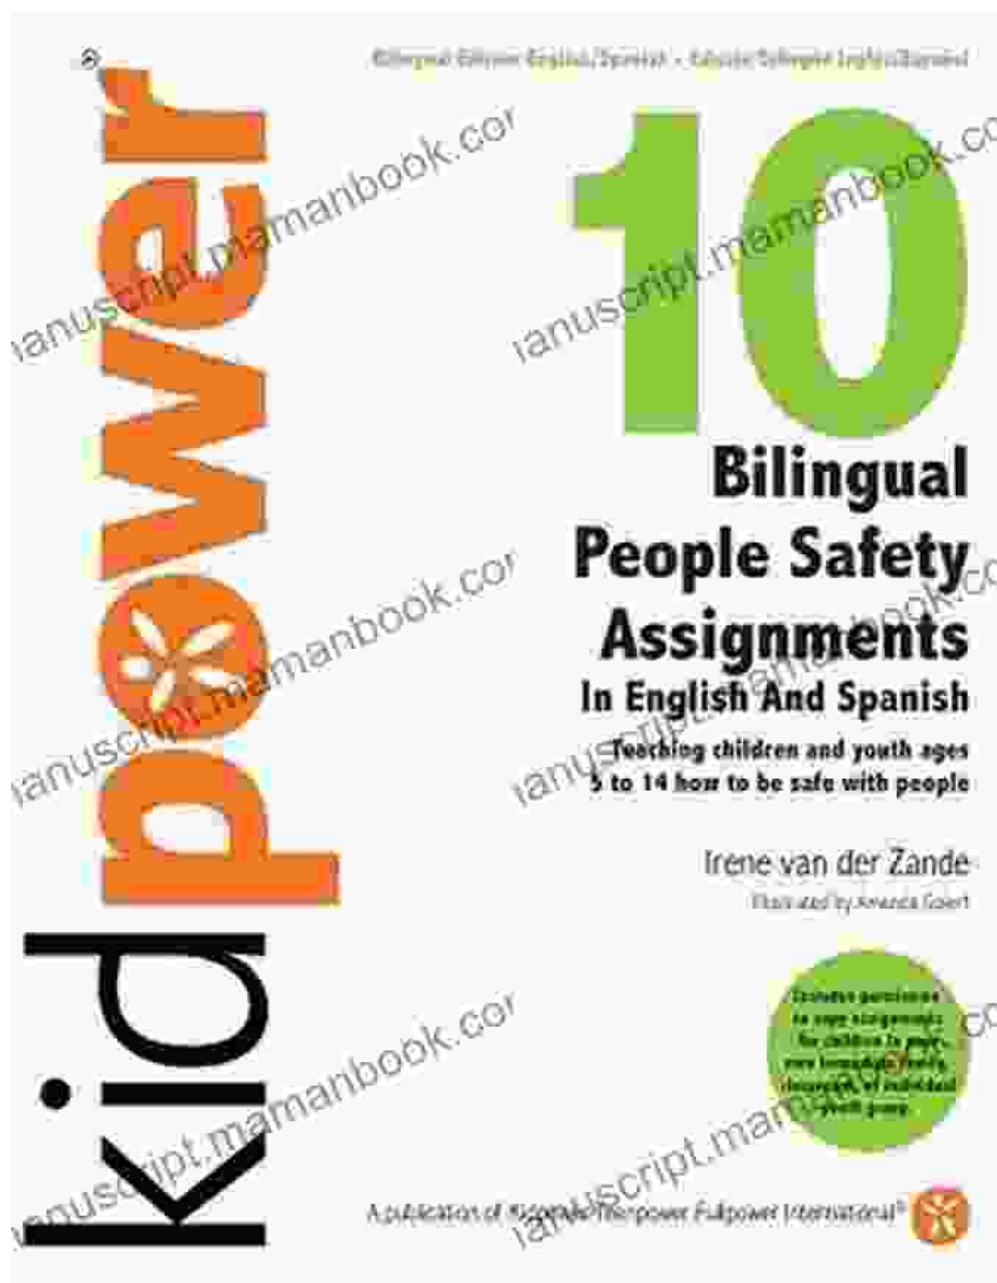

## 5. Home Safety

This assignment can be used to teach students about the basics of home safety. Students will learn about the different types of home hazards, how to stay safe at home, and what to do if there is a home emergency. The assignment can be completed in English or Spanish.

## 6. School Safety

This assignment can be used to teach students about the basics of school safety. Students will learn about the different types of school hazards, how to stay safe at school, and what to do if there is a school emergency. The assignment can be completed in English or Spanish.

## 7. Playground Safety

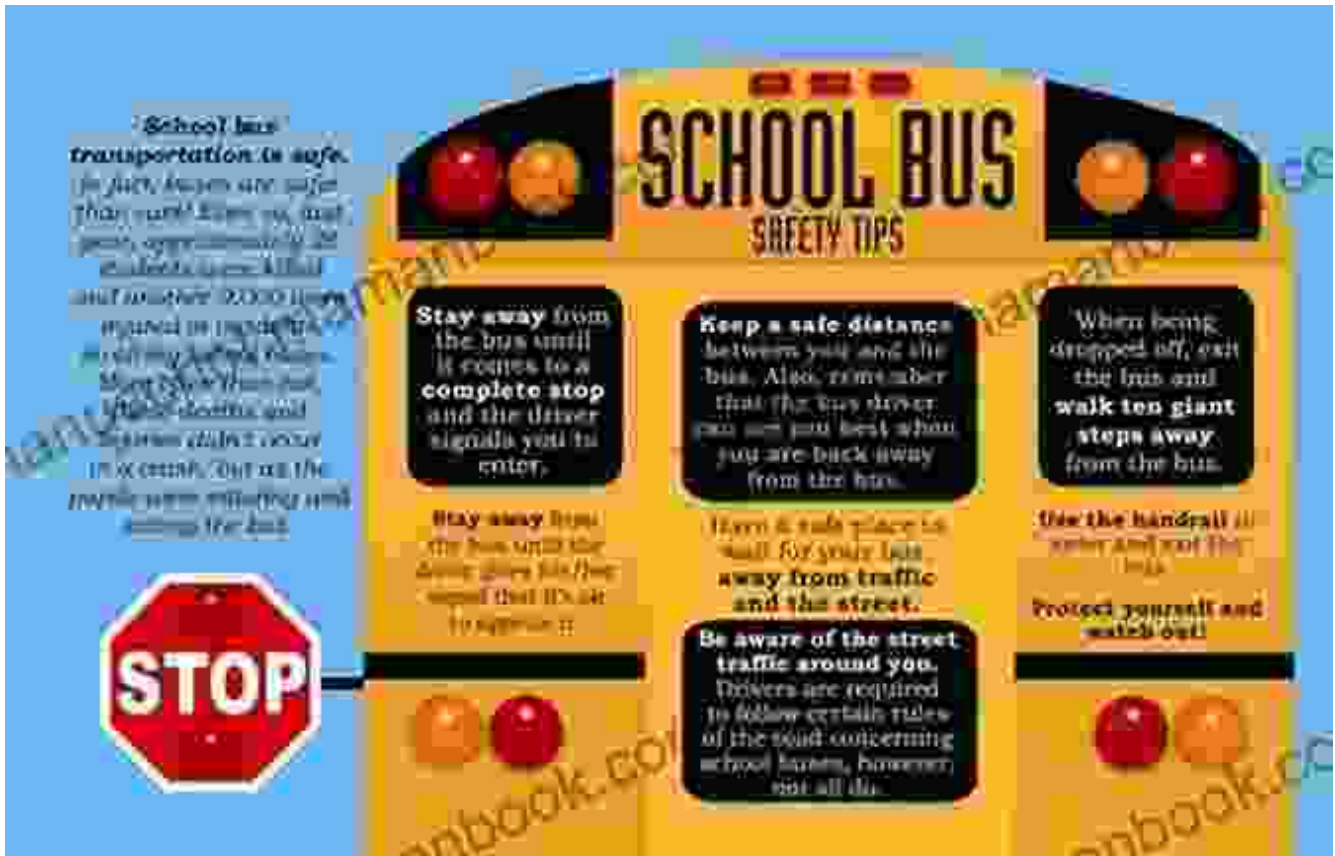

This assignment can be used to teach students about the basics of playground safety. Students will learn about the different types of playground hazards, how to stay safe on the playground, and what to do if there is a playground emergency. The assignment can be completed in English or Spanish.

## 8. Bus Safety

This assignment can be used to teach students about the basics of bus safety. Students will learn about the different types of bus hazards, how to stay safe on the bus, and what to do if there is a bus emergency. The assignment can be completed in English or Spanish.

## 9. Bicycle Safety

This assignment can be used to teach students about the basics of bicycle safety. Students will learn about the different types of bicycle hazards, how to stay safe on a bicycle, and what to do if there is a bicycle emergency. The assignment can be completed in English or Spanish.

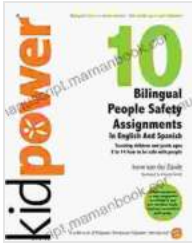

## 10. Car Safety

This assignment can be used to teach students about the basics of car safety. Students will learn about the different types of car hazards, how to stay safe in a car, and what to do if there is a car accident. The assignment can be completed in English or Spanish.

These are just a few of the many safety assignments that can be used to teach bilingual students about safety in both English and Spanish. By completing these assignments, students will gain the knowledge and skills they need to stay safe in a variety
